Dear Boss,

Equipping a Computer Lab with Internet access.

As requested by your order.
Perfecter. Perfecter Preparatory school is a school in kasoa, Central region of Ghana. Which met your support to equip with computers.

This will help the Pupils to make research and also assist the teachers navigate many site. Also it will help the children because as they are not able to buy reading books.

All subjects they can search on website. By so doing many high talented children will develop academically , technologically and in all area of their life.

This will by all means encourage those who are not in school to enroll and the drop out to go back to school at Perfecter Preparatory School.

Here is the project cost

Dual Core / Core 2 (Table Top Computer)
Memory or Ram 2GB
Processor 2.30ghz
Hard Drive 250 GB

¢400 each -- 10 cost ¢4,000
Monitor --¢150 each ---10 cost ¢1,500
Keyboard --¢30 each ---10 cost ¢300
Cord ¢25 each ----10 cost ¢250
VGA ¢20 each ----10 cost ¢200

ADFL Router ¢250 (Installation fee will be after the work is completed, and I hope the school must ba bale to bear that)

Ethernet cable----3 pieces ----¢30 each ----3 cost ¢90
Network cable 3 pieces ------¢30 each -----¢90

Extension cord ------6 Pieces -----¢25 each ---- 6 cost ¢150
UPS stabilizer ¢450
Transportation ¢150 go ----¢150 come costing ¢300

The school will maintain a high security and perfect maintenance of the lab, and make a good use of it for the bright future of the children.

Password will be set on the machines to avoid unnecessary use with the knowledge of the lab attendance.

Time to time report will be given during class and great monitoring of the Pupils.

A sample machine photo I included.

Hope you grant our request.
Thanks in advance.

Yours sincerely,
Yamuso Adeshina Michael.
